

Free Libris Mortis The Of The Un Ad Rar Utorrent .pdf

**INTRODUCTION**

Welcome to my 5e conversion of stat blocks from *Libris Mortis*! My name is badogga (badogga1 on reddit, badogga98108 on discord) and I'm converting the entire *Libris Mortis* book from 3rd edition to 5th edition. This document contains stat blocks and creature templates that are all directly taken from and/or inspired by the original book and its monsters. As of right now, the full book conversion is not out yet (this will be edited with a link when it is). Please feel free to use the following stat blocks in your games. To see the other homebrew that I've made, see this link: [Badogga's Homebrew](#).
